Sheet Music

I will be delighted if these photographs evoke vivid memories for my fellow travelers. Some images are of experiences we shared. Others are from personal explorations.

Enjoy the colors, shapes, patterns and textures in each picture.

I have intentionally sequenced these photographs such that each one is related to the next. Can you guess why I placed them in this particular order? Can you discern the connection?

If you think of each photograph as a musical chord,
this show becomes a musical score.

Play and interpret as you wish!
